PROFILE

A highly motivated, well qualified individual with thorough experience in the knowledge of languages and development tools. Looking for a position in a reputed, dynamic company where I can utilise my skills to the benefits of the company while also keeping the room to evolve my own abilities. Having a good knowledge in OOPS JAVA programming language .

TECHNICAL SKILLS

- Excellent debugging skills and logical thinking.
- Ability to work independently or in group and committed to quality work standards.
- Having strong knowledge in JAVA.
- Basic knowledge in SQL.

PROJECT

- **Music recommender System** : the music provider can predict and then offer the appropriate songs to their users based on the characteristics of the music that has been heard previously. The objective is to recommend the user the types of songs that he would like by comparing his taste i.e., his playlist of music with the songs available in the dataset of 5000 songs . Whole project is a **MACHINE LEARNING PROJECT**.
- **Portfolio Website** : Online representation of updated resume. Developed with the help of **HTML, CSS, JS**. This website is also a perfect SEO website because the tags used in html is properly taken care. This website creates a wow react from 10 out of 10 viewers.
